We see in the scriptures that Damascus is going to be a ruinous heap. For that to happen we don't see much of it here, but the Syrians are the ones that are behind so much of the terrorist activity there. If Damascus were taken care of, then it would end some things. When they begin making their move against Israel, the terrorist attacks step up and when Israel comes down with a hammer and is like a torch among the sheaves, and incinerates their enemies roundabout, that's when you are going to see the United Nations stand up in condemnation against what Israel has done to protect itself...

That is all going to be to pave the way so that the Gog Magog invasion will be able to take place. Israel will be completely overrun and for 10 days there will be no hope for the salvation of Israel.

It says in Zachariah (Chapter 12) that Jerusalem will become a cup of trembling for all the nations around about them. The whole world is about to shake. It will be uncontrollable because they are going to know what is about to happen. And there's no way to stop it. The United States government can't stop it. Nobody can stop it and the world is going to begin shaking. You are going to wake up one morning and you're going to know that this is it. The hammer has dropped. And after the shaking stops, you are going to pray and thank God that he let you know about this in advance. And now as you calm down, you had already said that my life is a living sacrifice. I put it on the altar and now I want to live my life for you. What do you want me to do? Right then, you are thankful that he let you know in advance, then you're going to know right down the line exactly who you have to call, who you have to see because now from this moment on, it is doing to be a dead run to the finish line. Many of you right now do not believe that this is really going to transpire. This can't be done in a closet. It takes time and it takes the movement of troops logistically to make this thing happen. We are going to know in advance in that day when you wake up and you know this is it. You are going to be ready. You are going to be prepared because now we are going to enter into the most exciting the most dynamic time on planet earth and from that moment on it is a dead run to the finish line.

For 10 days Israel will be overrun. There will be no hope for the salvation of Israel at all. For these 10 days as the Gog Magog invasion ensues, it will leave behind carnage where two-thirds of the people in the Land of Israel will be dead. At the end of that period of time in which Israel's allies will be cut in pieces as Zachariah Chapter 12 says that all those who burden themselves with Judah and Jerusalem will be cut in pieces even though the entire world is gathered together against Judah and Jerusalem, indicating Israel's allies will be cut in pieces. And it would occur to us by reading Ezekiel's account of this Gog Magog war that at the same time that Gog and Magog comes against the mountains of Israel, that He puts hooks in the jaws of Gog and Magog and they go up against the land of unwalled villages to take a spoil.

This is a time that we need to be prepared and prepare for this time as the prophet Isaiah said enter into your chambers for a little while. The Lord will come out of his place to punish the inhabitants of the earth. Shut the doors behind you. Enter into your place for a short season because the earth will not cover its dead. The earth will not be able to drink up the blood that is poured out upon it. .. At the end of this period of time, there is going to be a severe carnage upon the planet in which we need to be able to let things just sit for a while, take care of the things at home, the family at home and then when we are instructed to go out ... Then when you come out and you take a pot of hot rice and beans over to a family that hasn't had anything to eat for the last month then you will have a captive audience. You will be able to minister. You will be able to lay out things before them. Take your calendar or whatever it takes at that particular point to drive these things home, because this is when your ministry will come alive.

*Don't go out and try to save the world in the midst of this because the world is not going to be saved. There is a remnant that will be saved. And right now the remnant doesn't exist. We are not the remnant. The remnants are those that remain at the end... **This is the time when Tishri 1 hits this is when a shaking begins on planet earth and it will be from that point on a dead run.***

*For the next 10 days in the Land of Israel we see with no hope for Israel survival. **On the tenth day, which is Tishri 10 Yom Kippur, The Day of Atonement that is when God will fight for Israel.** That is a day that God will be sanctified in the eyes of all nations because HE is going to incinerate the armies of Gog and Magog on the mountains of Israel. While the whole world has thought that all this time that God doesn't exist, that God has been quiet from heaven, that God's judgments which have been promised are not going to happen because God is long-suffering and He's not willing that any should perish.*

When this day comes and when His Sabbath month begins these things begin to go down... He has fought for Israel and on that day Yom Kippur, the Day of Atonement, that is **the day of the National redemption of Israel**. That is the day that had been set aside for the **Covenant that was made in the Messiah's blood to be confirmed with his people** for one Shevua. That is when the blindness in part that has happened to Israel, will be lifted from their eyes. They will look on Him of whom they have pierced as it says in the 12 chapter of Zachariah. Not as He returns in the heavens. That's not what it's talking about. They will look on Him of whom they have pierced. They will weep and wail and cry for Him as they cry out for their only begotten Son. They will see the testimony that God put in the earth of His Son. The testimony that is greater than the testimony of men. **On that day that the Ark of the Covenant is revealed... that beings the last shavua.**

Now at that point when God has fought for Israel, then for the next 5 days we get ready because now we are going to have the Feast of Sukkot. The Feast of Tabernacles up on the Temple Mount for the first time in nearly 2000 years. During those five days of getting ready for the Feast of Tabernacles, that's when we're going to clear off the temple mount. We will bulldoze the remains of the mosque of Omar and the Dome of the Rock will be cleared from the temple mount at that time. Hundreds and perhaps thousands of dead bodies will be dragged off the Temple Mount and that is when it is going to be necessary to have the sacrifice of the red heifer, the red heifer which is born in the land of Israel. When that heifer is sacrificed, it is not blood atonement. That red heifer is to be completely incinerated. Everything is reduced to pure ash. Then that ash is put in water. What do you have then? You have lye. You have disinfectant. That is the waters of purification. That is what will be used to scrub down the Temple Mount and cleanse the temple mount so we can keep the feast of Tabernacles. What is going to happen at the Feast of Tabernacles this year is a most exciting event.

The Feast of Tabernacles for seven day we will be celebrating on the Temple Mount.

At the end of that period of time comes The Last Great day...We look to the Gospels to see how the Messiah prophesized what would take place at this time. In the Gospels, we have the Messiah interpreting the Torah, interpreting the feasts and we always look at how He interprets so we know how these feasts are to be interpreted, what the shadow pictures are and how they will be fulfilled...

Tishri 22 is the day of the latter day outpouring will take place at The Last Great Day at the end of the Feast of Sukkot. That is why we are to get ready and get cleaned up now. It's not an option. We either get cleaned up now or get ready or that latter rain outpouring is not going to be part of our experience. If we want to stay on Mt Garizim back in our own religion, in our own ways of doing things, then it's going to bypass us. The Messiah is going right back to Jerusalem. He's going to open the eyes of his people and just as the early rain came out to the Jew first and also to the Gentile, so it will be in these last days.

The Almighty has a plan for the last days that will shake the religious kingdoms of men to the ground. He has promised to raise up an army of mighty men filled with the double portion of the spirit and power of God.
